Year-End Tax Planning Checklist.

With the tax year ending on April 5 2023, now is the time to be thinking about how to make the most of the tax reliefs and allowances that are available to you.

That is why the team at Ascendis has compiled the following checklist of the key investment and tax planning ideas that you should be considering.

We hope that you find this checklist useful, but please bear in mind that this only provides a summary of the options you should be considering and not all options will be suitable for everyone. Therefore, for more information on any of the ideas outlined or for detailed advice tailored to your specific circumstances, please contact us.

Tax Planning.

Business Tax	No	Yes
<p>Dividend taxation: Have you utilised the zero per cent Dividend Tax Band of £2,000? Don't forget that this relief is being reduced from April 2023 to £1,000, before falling again in April 2024 to just £500.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Corporation Tax: The rate of Corporation Tax is currently 19 per cent. However, this will increase from April 2023 for companies with profits of more than £50,000 to as much as 25 per cent for businesses with profits exceeding £250,000. Businesses with profits between these thresholds will benefit from marginal rate relief to reduce their effective rate of Corporation Tax. You may also want to carry over losses into the new tax year to reduce your overall levels of profitability. If you face a higher rate of tax you could, for example, increase your pension contributions or fund the purchase of a company car so that your profits remain below £50,000. You may also wish to consider whether it will still be tax-efficient to run your business as a corporate body.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Capital Gains: Have you used your annual exemption for 2022-23 of £12,300? Be aware that the annual exemption is being more than halved to £6,000 from April 2023, and then reduced further to £3,000 from April 2024.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Accounting dates: Did you know if your accounting year is different to the tax year you will need to transition next year which will most likely result in additional tax. Are you ready? You can offset your overlap profit and it may be worth considering any planned expenditure in the transitional year 2023/24.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Incorporation: If you are trading as a sole trader, partnership or Limited Liability Partnership should you consider incorporation to a Limited Company as a more tax-efficient business structure?</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Capital Allowances: Have you purchased any required items before your business year end to ensure these allowances are available a year earlier? The Annual Investment Allowance will now remain at £1 million, so you should make sure you make use of this and the other capital allowance schemes. It might be worth deferring eligible expenditure into the next tax year, so you can reduce taxable profits after the Corporation Tax rates increase in April 2023.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Super Deduction: The Super Deduction allows companies to benefit from 130 per cent first-year relief on qualifying main rate plant and machinery investments made by 31 March 2023. Have you fully utilised this tax allowance in the current tax year? This means that investments in assets such as certain commercial vehicles, office furniture or solar panels will allow businesses to deduct the value of the investment, plus 30 per cent from their taxable profits.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Research & Development tax credits: Have you claimed for all your eligible R&D projects to take advantage of the significant benefits available? Under the SME scheme, HMRC will allow an extra 130 per cent of identified costs to be written off against taxable profits on projects that have led to the creation of new products, processes or services or modifying an existing product, process or service. Claims can even be made against innovations that resulted in a loss. Be aware that from April 2023, the additional R&D tax reduction will be reduced to 86 per cent, while the tax credit for loss-making companies will also be reduced from 14.5 per cent to 10 per cent. It might, therefore, be beneficial to bring eligible R&D expenditure forward.</p>	<input type="checkbox"/>	<input type="checkbox"/>

Personal Tax	No	Yes
Income Tax: The threshold for the additional rate of Income Tax will fall from £150,000 to £125,140 in April 2023 – this will put thousands of more people into the 45 per cent rate of tax and 39.35 per cent for dividend tax. Will this change affect you?	<input type="checkbox"/>	<input type="checkbox"/>
Child Benefit Threshold: If you or your partner has an income exceeding £50,000, child benefit payments are reduced and withdrawn entirely if your income is more than £60,000. If you find yourself in this situation, have you considered seeking professional Tax advice?	<input type="checkbox"/>	<input type="checkbox"/>
Company Car: Time for a new car? Have you thought about how switching to an electric vehicle could reduce of benefit in kind tax that you pay?	<input type="checkbox"/>	<input type="checkbox"/>
Inter-spouse transfers: Have you maximised capital gains and Income Tax rates and allowances through these exempt transfers? For individuals whose annual income is between £100,001 and £125,140 this is an ideal way of reducing your tax liabilities.	<input type="checkbox"/>	<input type="checkbox"/>
Exchange your salary for benefits: Consider exchanging part of your salary for payments into an approved share scheme or additional pension contributions, to take you below the £100,000 threshold.	<input type="checkbox"/>	<input type="checkbox"/>
Directors Loans: Have you used the tax-free interest amount on any loans to your business? Depending on your income level, you could save up to £1,000. Take note that the interest allowance is reducing from £1,000 to £500 in 2023.	<input type="checkbox"/>	<input type="checkbox"/>
Stamp Duty Land Tax: If you are looking to purchase a home, or second home, have you considered stamp duty? If you are purchasing an additional property to your main home you may face a three per cent surcharge on top of the current rates of stamp duty. Recent changes have seen the nil-rate band for Stamp Duty Land Tax (SDLT) on residential property purchases in England and Northern Ireland double from £125,000 to £250,000. The nil-rate bands for first-time buyers has also been increased.	<input type="checkbox"/>	<input type="checkbox"/>
Tax Freeze: The Government has further extended the tax freeze on personal tax allowances until 2028. This means that millions of taxpayers are likely to be pushed into higher tax bands as inflation affects their wages and income. Have you considered how this will affect you?	<input type="checkbox"/>	<input type="checkbox"/>

Inheritance Tax Planning	No	Yes
<p>Switch your assets: Inheritance Tax (IHT) must be paid on the value of any estate above £325,000. However certain assets including business and agricultural as well as shares in private trading companies may qualify for 100 per cent relief from IHT.</p> <p>The Residence Nil Rate Band (RNRB) was introduced in 2017 and applies to a residence passed, on death, to a direct descendant. It was introduced in stages – £100,000 initially, rising to £175,000 (2020). There is now a nil rate band of £325,000 plus RNRB of £175,000, – which, in total, provides an IHT allowance of £500,000 per person, so a married couple could have a £1 million allowance, where any unused allowance is passed to the surviving spouse. Estates worth over £2 million will start to lose the RNRB, with it being withdrawn at a rate of £1 for every £2 over £2 million.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Charitable and personal gifts: If you leave at least 10 per cent of your net estate to charity a reduced rate of 36 per cent rather than 40 per cent applies and could save your family money. Gifts to a spouse can be made now to use up his or her nil rate band and could help you to reduce the value of the part of your estate above the £325,000 band. You can also make regular gifts out of your income which are tax-free if they are used for normal expenditure, which could include, for example, paying for a grandchild's school fees. Other gifts may be free of IHT but it is important to seek advice first.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Passing on your pension: Following the change to pension rules in 2015, if you have not already done so, you should revisit your current plans and update your Will to ensure that your family receives the full benefit of any remaining pension fund when you die.</p>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Trust funds: There are many ways that a formal trust fund can protect and maximise your family's future assets. There have been a number of changes to the treatment of trust funds recently which are complex and could affect some people. If you are considering setting up a Trust, seek advice.</p>	<input type="checkbox"/>	<input type="checkbox"/>

Pensions.

	No	Yes
Protecting a large pension: The LTA was reduced to £1,073,100 in 2020/21. If this has affected your later life planning, we urge you to take advice as there are ways of protecting your funds.	<input type="checkbox"/>	<input type="checkbox"/>
Stakeholder pensions: All UK residents including children can make annual net contributions of £2,880 per year (£3,600 gross) regardless of whether they have any earnings. There are ways of using these payments to keep below the £50,000 income threshold to retain child benefit. It is also a very beneficial way of giving your children a helping hand for the future. If pension investments were to grow at a rate of nine per cent every year, investing £2,880 a year for your 10 year old child could result in a maximum pension pot of £1 million by the time he or she is 68 years old.	<input type="checkbox"/>	<input type="checkbox"/>
Pension drawdown: If you are 55 or over, you may be able to start drawing down pension benefits now from a personal pension such as a SIPP, even if you are still working. You may take up to 25 per cent tax-free with the rest taxed at your marginal rate. Anyone who is entitled to flexible drawdown and who is considering retiring overseas should seek advice on potential additional tax savings available to them.	<input type="checkbox"/>	<input type="checkbox"/>
Annual pension allowance: Have you used your full pension allowance? You can invest up to £40,000 a year into a pension tax-free. This amount can be carried over from the current tax year, plus the three previous tax years, allowing you to use unused allowance to top up your pension.	<input type="checkbox"/>	<input type="checkbox"/>
Carry forward benefits: Have you claimed your higher or additional tax relief? Have you used the carry forward rules in order to benefit from any unused allowance from the previous three tax years?	<input type="checkbox"/>	<input type="checkbox"/>
Make tax-free pension contributions: Pension contributions made to employees by an employer are tax efficient. If you own the company you can claim a business tax reduction. Where employees exchange some of their salary in return for a larger pension contribution made by the employer both parties can save on national insurance contributions.	<input type="checkbox"/>	<input type="checkbox"/>
Retirement planning: Have you ensured that you have a suitable plan in place to meet your needs in retirement? There are many tax reliefs and investment opportunities available that can increase your income and savings in retirement.	<input type="checkbox"/>	<input type="checkbox"/>

Investment Deals.

	No	Yes
ISAs: Have you used your maximum annual investment of £20,000?	<input type="checkbox"/>	<input type="checkbox"/>
Junior ISAs or Child Trust Fund: Has £9,000 been invested for any child under the age of 18?	<input type="checkbox"/>	<input type="checkbox"/>
Help-to-buy ISAs: New accounts were closed from 30 November 2019, but those with existing accounts can still save but must make use of savings by 30 November 2029.	<input type="checkbox"/>	<input type="checkbox"/>
Lifetimes ISAs: Introduced in April 2017, you must be aged between 18 and 39 to open a Lifetime ISA. The Government will provide a bonus of 25 per cent on the money you invest up to a maximum of £1,000 per year. You can save up to £4,000 a year, and can continue to pay into it until you reach 50.	<input type="checkbox"/>	<input type="checkbox"/>
Tidying-up your investments: Have you realised investments and bond gains or closed deposit accounts where funds may be attracting negligible rates of interest?	<input type="checkbox"/>	<input type="checkbox"/>
Take advantage of share schemes: If your company offers a share scheme, such as a share incentive plan (SIP) or a sharesave (SAYE) there are usually price discounts and tax incentives for taking part.	<input type="checkbox"/>	<input type="checkbox"/>
EIS investment: Have you considered these investments, which offer income tax relief of 30 per cent, as well as possible capital gains tax deferral?	<input type="checkbox"/>	<input type="checkbox"/>
Venture Capital Trust investment: Have you considered VCTs, which provide 'front end' income tax relief on subscriptions of up to £200,000, as well as tax-free dividends and capital gains tax reliefs?	<input type="checkbox"/>	<input type="checkbox"/>

The information on this page relates to the tax implications of certain investments, but is for general guidance only. Where investments are concerned, a financial adviser should be contacted.

Investment Deals continued.

	No	Yes
Seed Enterprise Investment Schemes: Although investing in an SEIS can carry more risk than an EIS or VCT, there is substantial tax relief available to offset a large part of potential losses.	<input type="checkbox"/>	<input type="checkbox"/>
Community investments: Share purchases or loans to a Community Development Finance Institution (CDFI) qualify for tax relief. Over a period of five years relief is provided at a five per cent, providing 25 per cent relief in total.	<input type="checkbox"/>	<input type="checkbox"/>
Social Enterprise investments: Investing in certain 'social impact' organisations can attract social investment tax relief (SITR) of 30 per cent. The limits have been changed this year. The amount of qualifying investment a qualifying social enterprise can raise has, in most cases, increased to a maximum of £1.5 million over its lifetime.	<input type="checkbox"/>	<input type="checkbox"/>
Life Assurance bonds: Insurance backed bonds allow five per cent of the original capital to be withdrawn each year tax-free. Although you need to consider commissions, management costs and basic rate tax charges within the bond, the five per cent tax-free withdrawal is still attractive to anyone whose level of income means they will lose their personal allowance and pay 45 per cent income tax.	<input type="checkbox"/>	<input type="checkbox"/>
Offshore bonds: As with UK bonds, five per cent of the original capital invested can be withdrawn each year tax-free. Although they are taxed in full when disposed of they provide a useful way of deferring tax.	<input type="checkbox"/>	<input type="checkbox"/>

The information on this page relates to the tax implications of certain investments, but is for general guidance only. Where investments are concerned, a financial adviser should be contacted.

Succession Planning.

	No	Yes
Selling a business: Are you thinking about selling a business or part of a business as part of your succession plan? You need to consider the personal and business tax implications of a sale. The sale of shares could lead to capital gains while selling part of your business or assets could create chargeable gains for Corporation Tax.	<input type="checkbox"/>	<input type="checkbox"/>
Management Buyout: If you are seeking a management buyout the structure of the transaction could have a substantial impact on how much tax each party pays. Have you considered how the new management will be remunerated? Will the sale be achieved through shares or assets? Are deal costs tax-deductible? Is Stamp Duty due on the transfer or sale of property?	<input type="checkbox"/>	<input type="checkbox"/>
Business Asset Disposal Relief: If you are looking to sell your business or shares in your business and this leads to a capital gain you could be taxed at a rate of up to 20 per cent, depending on your marginal tax rate. Business Asset Disposal Relief, formerly known as Entrepreneurs' Relief, could reduce this rate of tax to just 10 per cent.	<input type="checkbox"/>	<input type="checkbox"/>
Passing a business on to a family member: Gifting a business or shares in a business to a family member is still considered a disposal for Capital Gains Tax. Depending on when you pass on after gifting a company, the value of its shares and assets could also be included in calculations for Inheritance Tax but you could take advantage of Business Relief which reduces the value of a business or its assets by up to 100 per cent. Have you considered the tax implication of transferring your business to family?	<input type="checkbox"/>	<input type="checkbox"/>
